Hi Steve
We got your email.
We checked our emails and I asked out engineer Larry if he remembers anything about this project.
We don't have anything under that name. Can you find out if back then they had the same name ?
Thanks
Sosi

Subject: Testing performed for dHybrid 2011 - 2014

Dear CEE,

This proposal from dHybrid to U.S. EPA was dated 2011 and lists CEE as performing testing. Although EPA never received any test documents, the data results were mentioned in later submissions to EPA from dHybrid.

Can you please verify what testing was completed for dHybrid in the time from of 2011 – 2014?

Sincerely,
Steve DeBord
